

Annual General Meeting

29 November 2019

We are focused and clear on what we We are focused and want to be A global fabrics techno

A global fabrics technology business

We now have the right infrastructure

We have invested to build the right infrastructure; with a smaller number of facilities, but facilities better able to support our customers and our growth.

Branding & Marketing

Our brands are strong, recently refreshed and globally consistent, and we have a well-defined strategy with an exciting new product pipeline.

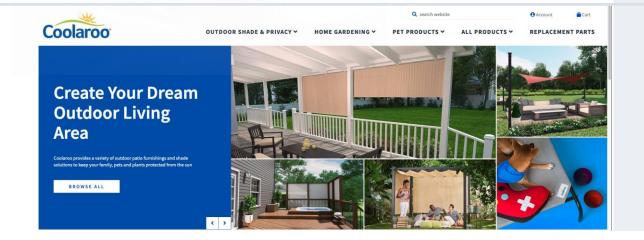

Technical Alliances

Supporting this new product
development are important new
technical alliances which, when
combined with our own team, are
beginning to produce outstanding
results

Innovative New Products

We are launching innovative products that have our customers excited and, in many cases, are supported by global patents.

Commercial DualShade 350 and a range of Flame Retardant architectural fabrics were recently launched at the IFAI Show in Orlando, Florida, USA.

Manufacturing Advancement

Manufacturing and warehousing facilities are safer and more efficient, with significantly reduced lead times and improved service levels. We are more able to sell with confidence.

10

Our People

A team thinking and operating globally, reflecting the more global nature of our business today. Leveraging scale where possible, but recognising the uniqueness of our customers and consumers in each market.

GALE Pacific | 1

Customers & Distribution

We have strengthened relationships with customers, built considerable new distribution and exited unprofitable and noncore geographic markets and customers.
